The Member shall be required to establish his or her right to receive payment by way of Compensation or damages before the claim may be considered by nib. Should it be established that the Member has no right to payment by way of Compensation or damages, then the relevant Benefits shall be payable.

Where a Member establishes his or her right to a payment by way of Compensation or damages and accepts a settlement, whether or not such settlement is later approved by a duly constituted Court or Tribunal, and where the terms of such settlement specify that the sum of money paid under the settlement does not relate to expenses past or future in respect of which Benefits from nib are otherwise payable, or where the Member abandons or compromises any part of the claim so that such expenses are excluded, then Benefits are not payable.
